- Research and evaluation

STRATEGIES

1. Support advocacy efforts to increase access to quality health care in Kansas

2. Build the capacity of providers to deliver more, high quality care

3. Increase the capacity of clinics and other organizations to advocate for improved access

4. Increase awareness and will around barriers to accessing care and potential solutions

5. Increase capacity of clinics and providers to engage in effective integrated voter engagement efforts

SHORT-TERM OUTCOMES

6. Increased awareness of policies supporting delivery of quality services and access to affordable care for Kansans among government and system policymakers

7. Improved capacity for advocacy (e.g., alliances and coalitions among health advocates become stronger, more active and more inclusive of diverse constituencies)

8. Increased awareness and knowledge of among community members about quality services/system delivery models and access to affordable care for Kansans

9. Increased awareness and knowledge among providers about quality services/system delivery models and access to affordable care for Kansans

INTERIM OUTCOMES

10. Increased public pressure on policy makers at the state and local level.

11. Effective policy passage, implementation, and enforcement/blockage of harmful policy

12. Community norms support access to care and delivery of quality health care services

ACESS TO CARE OUTCOMES

13. **Improved access to care:**
   - Increased number of Kansas adults with health insurance

14. **Increased availability and quality of care:**
   - Improved health delivery systems, including availability of services and providers.
   - Reduced health care costs
   - Increased cultural competency of clinics and other service providers

15. **Increased use of quality health care services:**
   - Increased number of Kansas adults who had a routine check-up in the last year
   - Increased number of Kansas adults who visited a dentist or dental clinic in the past year

IMPACT

16. Reduced health disparities

17. Improved health for all Kansans
